24/07/2026 **x x x x x x x x x x**

Figure 1 consists of three horizontal bar charts, each representing the distribution of the number of 'x' characters in the first 1000 lines of source code for 911 projects. The x-axis for all charts represents the number of 'x' characters, ranging from 0 to 10. The y-axis represents the count of projects.

- Top Chart:** Shows the distribution for all 911 projects. The distribution is highly skewed towards zero, with a peak at 0 'x' characters (count ~850) and a long tail extending to 10 'x' characters.
- Middle Chart:** Shows the distribution for projects with a single 'x'. The distribution is also skewed towards zero, with a peak at 0 'x' characters (count ~850) and a long tail extending to 10 'x' characters.
- Bottom Chart:** Shows the distribution for projects with multiple 'x's. The distribution is skewed towards zero, with a peak at 0 'x' characters (count ~850) and a long tail extending to 10 'x' characters.
